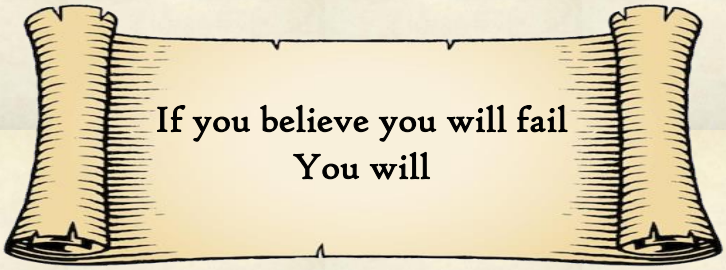
Personality Development & Communication Skills

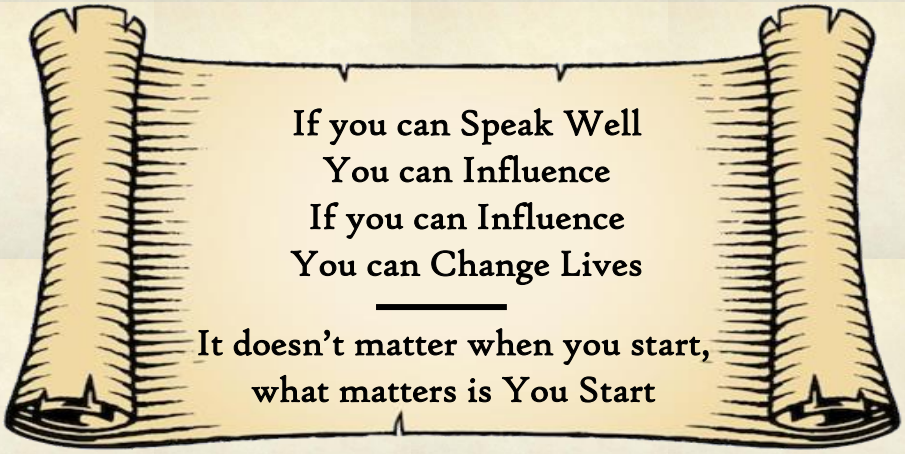
You can Influence People around you

You can become Favorite Boss, Favorite Subordinate



Communication Skill (1-to-Many)

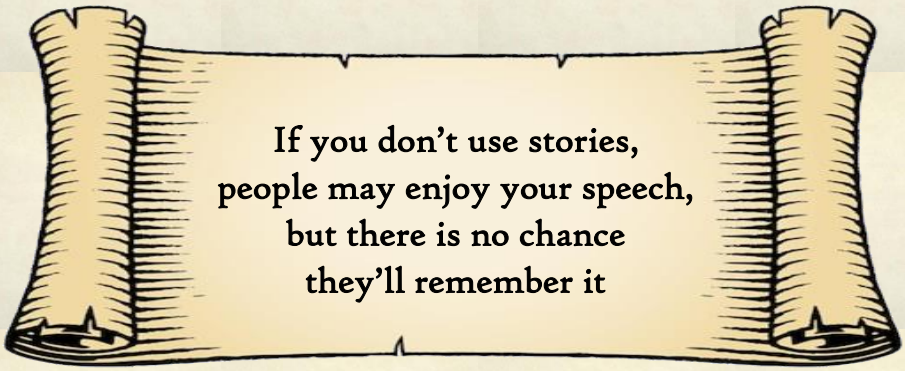
- Do you Know => 75% people suffer from Fear of Public Speaking according to the National Institute of Mental Health
- Do you Know => It takes only 30 seconds for people to assess whether a Speaker is Charismatic or not
- Superstar Personalities are made, not born
- There is no such thing as Public Speaking Talent - It is called Public Speaking Skills
- Speaking is a Critical Skill =>You can Influence & Influence is Everything..
- There are three things to aim at while Speaking:
  1. Get into your subject (what to Speak – the content),
  2. Get your subject into yourself, and
  3. Get your subject into the heart of your Listeners



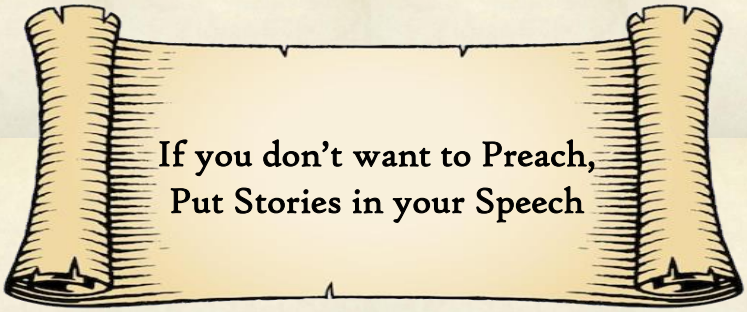
Story Fusion is Communication

People forget facts, but they remember stories

- According to a Research, the Average Attention Span of a Human is 8 Seconds
- Storytelling is a great way to stimulate engagement & the reason for that is Chemical in Brain called Oxytocin.
- All Memorable Presentations have at Least One Story Without a Story, Presentations would Fall Flat - unless you're Elon Musk
- Entrepreneurs who make a Difference are all Professional Storytellers
- If History were Taught in the form of Stories, it would never be Forgotten
- 25 times people are more likely to Remember Stories



- If you don't use stories, people may enjoy your speech, but there is no chance they'll remember it
- Emotions: Use a Strong Emotional Component. You must Feel and Relate with your Speech
- Storytelling is the most powerful way to put your ideas into the world today.



Opening and Closing for Impression & Retention

- Anything that Generates Interest, Establishes Relevance, or Inspires Curiosity in the Mind
- The beginning is the most important – 8 Types of Hooks
  1. Metaphor/Simile Connected to the Topic
  2. A Brain Teaser or Challenge Question
  3. A Historical Example
  4. A Video
  5. Interesting Question Hook
  6. Golden Statement Hook
  7. Data/ Fact/Statistic Hook
  8. Story/ Joke Hook

Creating Content is like dating.
If all you do is talk about yourself,
there won't be a second date.

Golden Statements - A Statement of Personality

मैं कभी हारता नहीं,
या तो जीतता हूँ या फिर सीखता हूँ

Rhyming / Non-Rhyming Quotes & Dialogues

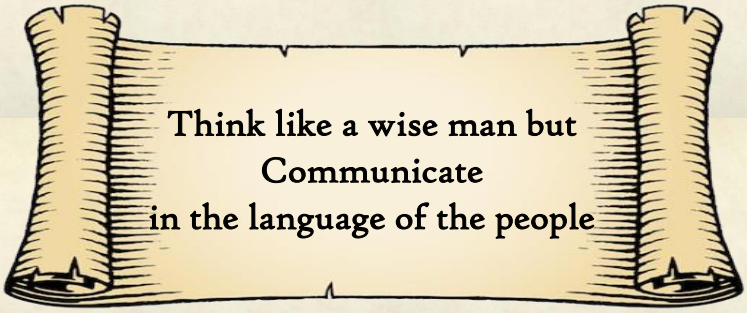
Burberry	Block Buster	Pay Pal	Dunkin Donuts
Coca Cola	Mickey Mouse	Johnson &Johnson	Bada Business

Communication of Comparing the Uncomparable
(Analogies & Metaphors)

- Particularly when you're talking about complex subjects, it's important to use Analogies and Metaphors
- These help bring the content to life and the aim is to make things simple and interesting.



Analogies – Comparing two Uncomparable things

- इस घर में कोई चीज़ ढूंढ़ना -भूसे में सुई ढूंढ़ने के बराबर है - मतलब घर में सामान ढूंढ़ना बहुत मुश्किल है
- तुमसे बात करना तो दीवार पर सिर मारने जैसा है - Means … Its Useless Activity
- I get as Busy as a BeeMeans … I don't have time even to Breathe

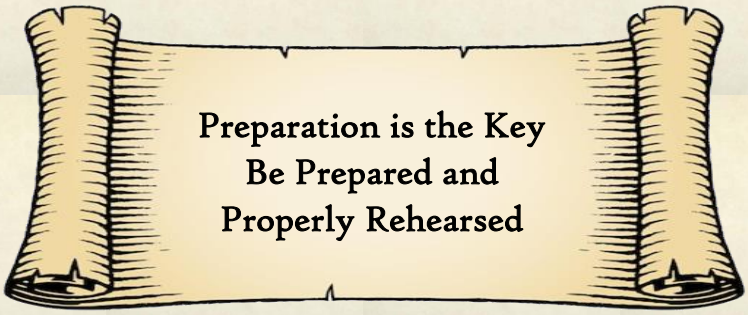
Metaphor – Figure of Speech

- Life has become a Roller Coaster (Struggle)
- Delhi in June is as hot as Oven
- He has a lazor like focus
- I'm a Night Owl (Sleeps Late)
- Life is a Highway (Continuous Journey)
- Wafer Slim Margin (Low Margin)

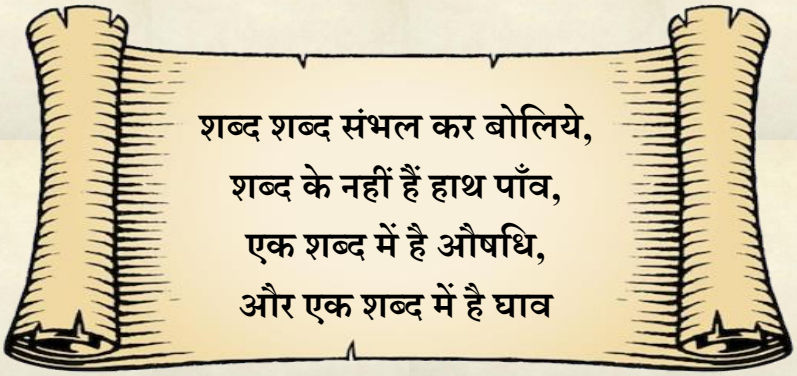
LHS – RHS Approach of Communication (Comparable & Reference Point)

- This is the "Compare and Contrast" method
- We can divide the speech into a timeline - Past vs future - Today & Tomorrow
- Also Called as:
  1. Advantage vs Disadvantage
  2. Cause & Effect Method
  3. Risk vs Opportunity
  4. Problem vs Solution

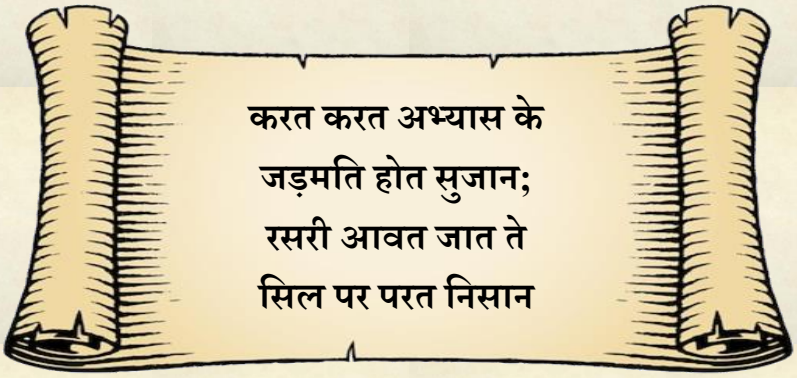
Personality Grows with Preparation (Never Speak Unprepared)



- 1:3 Rule => If your speech is 30 minutes long, then you should rehearse for 90 minutes (three times)
  - 1st – Comfort => 2nd – Confidence => 3rd – Perfection
- A Good Speaking is 3/4 Preparation & 1/4 Gesture
- If you don't know what you want to achieve in your speech, your clients/ customers will never will
- Best way to conquer fright of speaking in meetings is to know what you're talking about.



- All the great speakers were bad speakers at first
- Great speakers are not born, they're trained
- Best way to conquer fear of speaking is to know what you're talking about
- If you can't explain it simply, you don't understand it well enough
- If you can't state your position in 8 words, you don't have a position
- It takes one hour of preparation for each minute of presentation time



C3 Formula of Communication

- Conviction => Confidence => Contagious
- Knowing the Subject Matter and Communicate Well
- Do it over & over again until it becomes part of who you're
- Low Energy => Monotone Voice (Single tone)=> Dull Face Expressions

Enthusiasm is an audience's most desired quality in a Speaker

- Enthusiasm is Contagious
- Great Speakers transfer their Enthusiasm. Example, Barak Obama
- Your all 206 Bones => Should be Highly Active and Alert
- Your Client or Customer doesn't care if you aren't well
- Don't expect your client to be excited about your speech when you yourself are not
- Remember, you only have 30 seconds to either make or break a lasting impression on your Client or Customer
- Feel the content so that the audience can connect with you
- You're a Great Speaker if your tongue can deliver the message of your heart
- Emotional Truth is more important in Public Speaking than Intellectual Truth
- Always give a speech that you would like to hear

मुँह से बोला हुआ - कानों तक जाता है
तर्क से बोला हुआ - दिमाग तक जाता है
दिल से बोला हुआ - दिल तक जाता है
और सही समझ आता है
और हमेशा याद रह जाता है

Poses of Pauses in Personality
